

POP-UP STOPPER

Need a Different Finish?
Replacement Caps
Available

POP-UP STOPPER Chrome Finish

- Two hole design
- Fits most pop-up drain units
- Non-corrosive plastic body

INSTRUCTIONS

1. Loosen the ball rod nut and pull the rod out.
2. Remove and discard the existing pop-up stopper.
3. Insert the ball rod back in place and tighten the nut.
4. Orient the pop-up stopper slot aligned with the ball rod.
5. Insert the pop-up stopper and push it on to the ball rod until it sits on the bottom of the sink.

If stopper is too tight to insert, trim or file the four stopper wings uniformly.

Keep Out of Reach of Children
